

Alberta Barley Commission Annual Event at FarmTech 2012

Dr. Max Moehs

GMO Barley: Where is it at and where is it going

**Wednesday, January 25 10:00am – 11:00am
Room 1**

Dr. Max Moehs, BS in Chemistry from Syracuse University/SUNY CESF, PhD in Genetics '89 from North Carolina State University. Dr. Moehs has been with Arcadia Biosciences since 2005 working on projects related to cereal improvement both by transgenic (GMO) and by non-transgenic (TILLING and mutation breeding) methods. Previously he held postdoctoral appointments with the US Department of Agriculture in Albany, CA working with Olin Anderson on wheat molecular biology and biochemistry and with Dean Dellapenna at the University of Nevada, Reno.
